

# Art Teenies at home

In Art Teenies, we get under 5s talking about and making art.

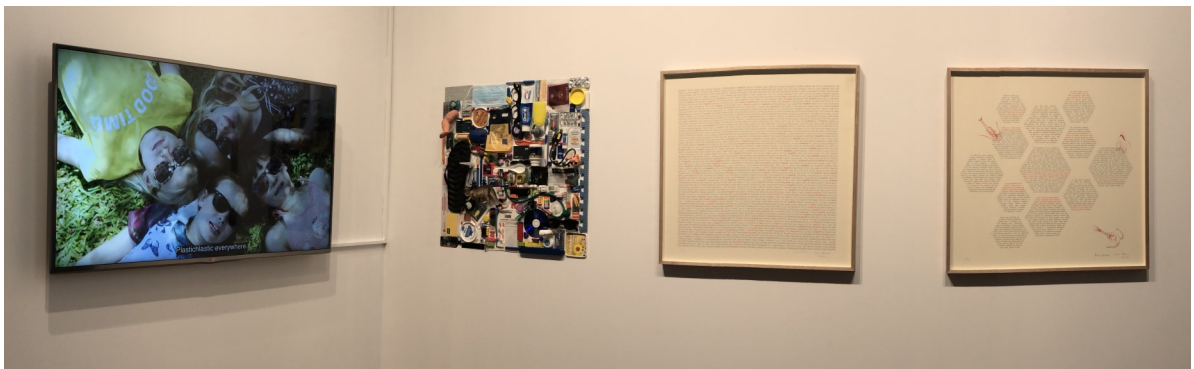

## Earthbound Curated by Hannah Gee

Above, in Gallery 1, Hannah Gee has curated 'Earthbound' and it includes works by several different artists and explores the different types and stages of ceramic ware.

Below, in Gallery 2, Kim Williams and Lucas Ihlein present works considering plastic as a medium and subject that make us think about how much plastic is around us.

The exhibitions continue at Goulburn Regional Art Gallery until 23 Oct. 2021.

## Gallery 1 Earthbound

'Earthbound' exhibits works by 6 artists Janet Fieldhouse, Ian Jones, Katrina Leske, Kate MacKay, Carlene Thompson and Alana Wilson.

The works include hand built forms and wheel thrown works, some have been glazed and some have had marks drawn or carved on them.

We have ceramics around us everyday.

What ceramics can you see?

Bowl? Vase? Plate? Sculpture?

## Gallery 2 Kim Williams and Lucas Ihlein

Kim Williams and Lucas Ihlein sometimes make art together.

As artists, they know that plastic is everywhere and without plastics the art world would have to rethink how art works are kept safe when travelling from town to town.

We have plastic around us everyday.

We all need to think about the impact all this plastic is having on our world.

What plastics can you see?

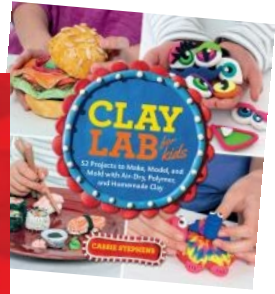

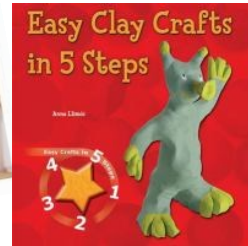

TV remote? Biscuit packet?  
Water bottle? DVD?

# Paper Clay

## Storytime

Goulburn Mulwaree Library has a great selection of books on this topic. Check out these titles.

## Let's get making!

What you'll need:

Shredded Paper	Large Bowl	Hot Water
Flour	Salt	Hand Blender

### Step 1

Fill your bowl with the shredded paper and hot water. Mix it around, adding more water if needed to make sure the paper is fully covered.

Leave overnight or a couple of hours.

### Step 2

Your paper should be ready to blend. Using a hand mixer or electric mixer, pulp paper until it's completely broken down.

Squeeze to remove excess water.

### Step 3

Add 1 part flour to 4 parts paper. Mix with hands.

### Step 4

Now you are ready to create. Mold your paper clay into a shape or bowl or vase. Allow to dry.

Store left over paper clay in the fridge in an air tight container for 2 weeks.

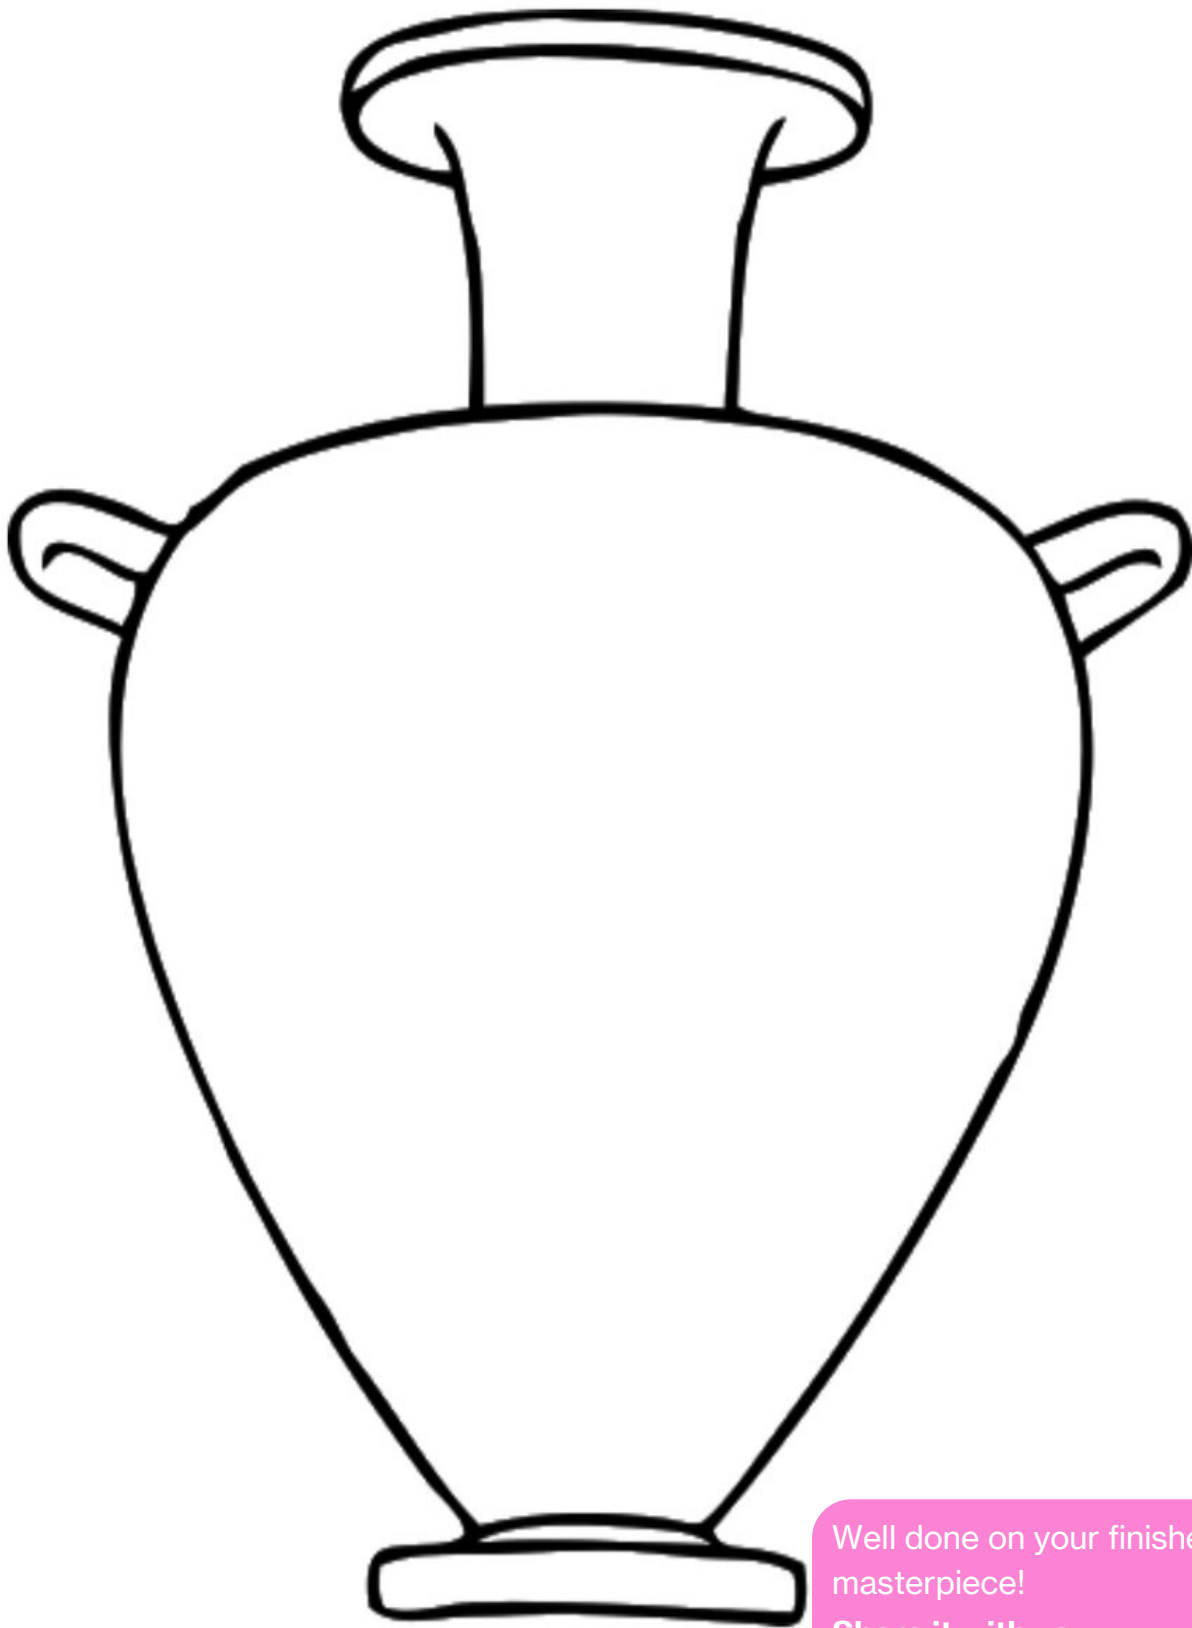

Well done on your finished masterpiece!

# Plastic Art

## Storytime

Goulburn Mulwaree Library has a great selection of books on this topic. Check out these titles.

## Let's get making!

What you'll need:

Plastic bags      Bottle lids

### Step 1

Find plastic in your recycling bin. Spread it out on table to see what you have and think about what you could make using the pieces.

### Step 2

Create pictures with your pieces. Green plastic bags can be grass, flower stems, water. Bottle lids can be flower petals, fish, a boat, funny face.

### Step 3

Glue the pieces in place on some cardboard or move the pieces around to create another picture.

### Step 4

Take a photo or draw a picture of your plastic art.

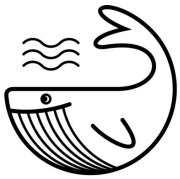

Well done on your finished masterpiece!
